

[back to top](#)

This template is intended for reporting a summary of USGA Diagnostic pathway results. <sup>a</sup>Where the USGA assessment is a "significant management concern" under Principle 2, Reporting to the SEC and on an annual basis, the USGA should include the pathway and the type of treatment (whether "significant management concern" or "insignificant management concern" as determined by the USGA).

The USGA enters the date the assessment was conducted. (If primary care material is not used, the USGA enters the assessment name and birth name.)

The USGA enters the USGA number.

The USGA enters the location of treatment (management concern) or production (primary care material). For routine primary care material, USGA enters the County of location.

The USGA enters the USGA number for the assessment primary care material.

The USGA enters a summary description of the USGA assessment (max 1500 characters).

The USGA enters the date of the USGA assessment.

The USGA enters a summary description of any measure taken to ensure use (for the significant management concern) only (max 1500 characters).

The USGA enters a summary description of implemented management plan to ensure the effectiveness of any measure taken to ensure use. (If applicable) and if monitor the USGA results, or indicators for the USGA results.
